

DATA & AI

UNLOCK THE POWER OF DATA

End-to-end data analytics solutions to support digital readiness

How do enterprise leaders make better decisions? Data analytics and artificial intelligence (AI) applications tap into a world of information to derive and deliver critical insights.

ECS provides cutting-edge data science, analytics, and artificial intelligence capabilities trusted by leaders across government and industry, managing information at the enterprise level by delivering relevant and trustworthy information at scale. Through the **ECS Data and AI Center of Excellence**, we drive thought leadership, investment, and training in AI technology, processes, and methodologies.

Practical Applications

SUPPLY CHAIN & LOGISTICS

Optimize your supply chain with predictive analytics.

HUMAN RESOURCES

Recruit, retain, and cultivate top talent.

RESPONSIBLE AI

Reliable, governable, and transparent-responsible AI for all.

Key Capabilities

Adaptive Data Platform

- Composable, modular architecture
- Integrated, 360-degree view of data for all stakeholders

Intelligent Data Management

- End-to-end lean data management process
- Trusted data ecosystem powered by AI/ML
- Leverage data at scale

Consumable Analytics

- Maximize user experience
- Real-time data
- Personalization, self-service, collaboration

Applied AI

- Actionable insights
- Consumable and scalable solutions
- Human-centered, design-led thinking
