

Make Data Actionable in Real Time at Scale

ECS is a leading partner for Elastic, the creator of Elastic Stack — the leading open-source search and analysis platform. Elastic Stack is a suite of open-source products that enables real-time search, analysis, and visualization of data regardless of format. Our data scientists, analysts, and systems engineers leverage Elastic's open-source technology to deliver advanced solutions in machine learning, big data, and cybersecurity.

As a regional Elastic partner, ECS helps our customers migrate their workloads from legacy platforms to Elastic. The result: customers see improved performance, enabled multitenancy, and increased cost savings.

Coupled with a user-friendly interface, these capabilities help customers unlock the patterns buried in their data and assist in identifying critical mission intelligence. ECS' Elastic solution boosts security (including SIEM), strengthens monitoring and reporting, and enables machine learning for customers across federal civilian, defense, and commercial sectors.
