

# HEALTH IT

## MODERNIZE PATIENT CARE AND ENHANCE EFFICIENCY

In today's fast-paced healthcare landscape, outdated systems and fragmented processes can critically impact care delivery. Without seamless data integration and efficient workflows, healthcare providers face operational delays, reduced patient satisfaction, and hindered decision-making.

At ECS, we design and implement health IT solutions tailored to enhance care delivery and operational performance. Starting with a deep understanding of your organization's unique needs, our human-centered approach ensures a smoother integration of health IT that aligns with existing systems. Our solutions optimize your resources, improve patient data management, and streamline workflows.

## WHY CHOOSE ECS?

ECS brings deep federal and commercial expertise to health IT. As leaders in AI, data analytics, and cybersecurity, we leverage a vendor-neutral approach to build and scale customized solutions that meet your organization's evolving requirements. Our team includes former healthcare leaders and veterans with insights into both federal and commercial sectors, providing agile, scalable solutions with minimal disruption.

Electronic Health Record (EHR) Management

Legacy Data Consolidation

Cybersecurity and IT Service Management

Mobile Device Management and Application Services

AI and Data-Driven Policy Design

## FUTURE-FOCUSED AI SOLUTIONS

As a top five AI provider to the federal government and the leading provider of fielded AI models for the DoD, ECS offers advanced capabilities to tackle tomorrow's challenges. From disease prediction and resource allocation to real-time unobtrusive health monitoring, our AI-driven tools empower healthcare organizations to improve outcomes and safeguard public health.

## TRUSTED BY LEADING AGENCIES

ECS is a prime contractor for the VA and trusted partner for NIH, DHA, CMS, and more, with a proven track record across six major VA transformations since 2014.
