MISSION PARTNER ENVIRONMENTS

Secure, Cloud-Native Workspaces for Coalition Coordination

Speed. Trust. Shared awareness. ECS Mission Partner Environments (MPEs) allow partners to communicate, plan, and execute with precision. They enable secure coordination in real time, no matter where you operate or what language you speak.

Whether your organization is part of a multinational defense coalition or an international commercial enterprise, operational success depends on collaboration aided, not hindered, by technology. ECS MPEs provide a trusted, cloud-native digital workspace where teams can share sensitive data, coordinate logistics, and manage operations, with zero-trust security baked in from the edge to the enterprise.

BLUE DAWN
POWERED BY ECS

ECS' Blue Dawn MPE has been designated as an "awardable" solution on the Department of Defense's (DoD) Tradewinds Solutions Marketplace

MISSION-CENTRIC, RESPONSIBLE AI AT SCALE

6
MPEs currently deployed and managed

130+
Languages supported with AI-enabled translation

100%
Of environments delivered with zero-trust controls from Day One

Share Securely: Policy-based access controls allow information to flow securely across enclaves and classification levels.

Operate Anywhere: Cloud-first delivery with disconnected/edge options keeps teams productive in austere and coalition environments.

Execute Faster: Project management, collaboration, and advanced analytics and visualization tools, as well as large language model (LLM)-powered insights, empower personnel and put mission data to work.

Understand More: AI-enabled translation supports multilingual collaboration across 130+ languages.

Stay Compliant: ECS-managed environments align to stringent security standards.

HOW ECS' CUSTOMERS ARE USING MPEs

- **Coalition planning and operations:** Share plans, tasking, and situational updates with partner forces in real time.

- **Mission logistics and sustainment:** Coordinate movements, inventory, and maintenance across organizations.

- **Humanitarian and disaster response:** Stand up a secure, shareable workspace with non-governmental organizations (NGOs) and interagency partners in weeks, not years.

- **Defense-industrial collaboration:** Protect sensitive data while enabling vendor and program-office coordination.

MPEs IN ACTION

ECS' "BLUE" MPEs, such as the BLUE MAST MPE supporting the U.K. 2025 Carrier Strike Group (UKCSG25) mission to the Indo-Pacific, enable coalition coordination for critical mission success.

As a trusted provider of advanced capabilities in cybersecurity, AI, and digital transformation to federal organizations and Fortune 500 companies alike, ECS is ready to deliver mission-enabling solutions in weeks, not years.

From the boardroom to the battlefield, ECS empowers your mission, amplifies your impact, and drives lasting results with frontier technology solutions. Our highly skilled teams bring the best of innovation to urgent mission needs across the U.S. public sector, defense and intel, and commercial industries, with a focus on efficiency and impact. ECS maintains partnerships with leading AI, cloud, and cybersecurity technology providers and holds specialized certifications in their technologies.
